

Adjust local time on Stoneridge SE5000 V7 digital tachographs

1. From the primary default screen press OK.

2. The first menu you will see is 'PRINT', press the up arrow until 'SETTINGS' is displayed.

3. Press OK to enter the Settings menu; the first option in this menu is 'Language'.

4. Press the down arrow once until local time is displayed.

5. Press OK to enter the local time adjustment screen.

6. Use the up and down arrows to adjust the time in half hour increments until the correct local time is displayed. **BST = UTC + 1 hour / GMT = UTC**

7. Press OK to store the new local time.

8. Press back button twice to return the tachograph to the primary default screen.
